The original GREEN PEEL® Herbal Peeling Classic

The GREEN PEEL® Classic Herbal Peeling treatment ensures long-lasting results and improves the quality of the skin in the long term.

Due to its intensive effect, the GREEN PEEL® Classic is an excellent natural alternative to instrument-based procedures such as microneedling and microdermabrasion, chemical peels, fruit acid peels and laser treatments.

Visibly reduced skin problems due to peeling

very light peeling
(scaling)

light peeling

strong peeling

GREEN PEEL® Classic for

- Large-pored, seborrheic skin
- Impure skin, sebum cysts
- Prematurely aged skin
- Wrinkles
- Sun damaged skin
- Scars, including acne scars
- Hyperpigmentation
- Stretch marks
- Sagging body skin (abdominal wall, upper arms, thighs)

Visible results

Before the treatment
Aged, sun-damaged Skin

After the 4th treatment
Regeneration of the tissue

The effectiveness

The activating effect of the treatment triggers special regeneration processes in the skin, which cause a visible renewal of the skin in 5 days. During these days your skin needs special care so that the renewal process can take place optimally. For this purpose, you will receive a GREEN PEEL® Home Care Set specially adapted to your skin type and condition. After 5 days, the Beauty Finish treatment follows in the institute. This treatment is essential to finish the peeling process, to examine the result, to provide the new, fresh skin with optimal care and to discuss further treatment goals.

As every skin is different, the intensity of the peeling also varies from person to person, but this does not affect the proven effectiveness.
